

## CALGYM Rack Systems/CG-8810 Power Rack

### CG-8810 Power Rack Base Unit

as shown with standard features CG-8830 J-Hooks,  
CG-8832 Safety Stoppers and CG-8833 Pull-up Bar Connector

Made in the USA, the CALGYM Rack Systems designed to have a common base frame structure that allows personal trainers, studio owners and full service fitness facilities the ability to build their own custom exercise stations with interchangeable options, accessories and add-ons.

### Features & Specifications:

- 2"x3" 11-gauge American tubular steel mainframe construction.
- Electrostatically applied powder coat, standard Wrinkle Black finish and baked to insure durability.
- Gas metal arc welding (GMAW) process – fusion of metals.
- Quick-change J-hook design constructed with 5/8-inch solid steel protected with industrial strength plastic cover.
- Quick-change Safety Stoppers (rated to 900 lbs. weight capacity) adjust in 3" increments to accommodate users of all size. Full length rubber protective cover.
- 3/8" and 1/2" grade 5 & 8 frame bolts used for optimum strength and durability.
- Integrated safe Quick-change design on all adjustments.

**NOTICE:** TuffStuff continually engages in research related to product improvement. As a result, the product received by the customer may differ slightly from its published description. Improvements in materials, production techniques and design refinement may at any time be introduced into our products. TuffStuff reserves the right to make changes in its product without notice.
